## EDUCATION

### B.Tech In Computer Science & Engineering Cochin University of Science and Technology, Kerala(CUSAT)

2013 - 2017

8.0

## SKILLS

Devops

Troubleshooting

Linux

Jenkins

Terraform

Docker

Kubernetes

AWS Devops

SQL

Python

CI-CD

Prometheus

Grafana

Shell Scripting

Problem Solving

## PROJECTS

### Netflix Clone DevSecOps Project (08/2023 - Present)

- Successfully led the implementation of a cutting-edge DevSecOps project for a Netflix Clone, integrating security, automation, and monitoring across the entire CI/CD pipeline.

### Automatic GP2 to GP3 Volume

#### Conversion in AWS EC2 (07/2023 - 07/2023)

- This project leverages AWS CloudWatch and Lambda to automatically convert Amazon Elastic Block Store (EBS) volumes from GP2 to GP3 as soon as they're created. This means better performance and cost savings for our EC2 instances, all without manual intervention.

### GitLab CI/CD for Terraform | Plan, Apply, Destroy: Managing Infrastructure (11/2023 - 11/2023)

- Implementing GitLab CI/CD for Terraform to streamline infrastructure management. Creating an automated pipeline for validation, planning, applying, and if needed, destroying changes. Enhancing efficiency, reducing errors, and accelerating software development in a DevOps environment through automation and collaboration.

## CERTIFICATIONS

### AWS Cloud Practitioner Essentials (01/2021 - Present)

Amazon Web Services

### DevOps Institute Cert Prep: SRE Foundation (SRE) (12/2023 - Present)
